MIRACLE® LUMBER LOCK Heavy-duty subfloor adhesive is stronger than the LUMBER it LOCKS together. LUMBER LOCK also exhibits all-weather versatility, remains flexible to absorb noise-causing vibrations, and resists impact and deflection while passing ASTM D3498 and AFG01.

LUMBER LOCK is the adhesive of choice for builders looking for peace of mind and ease of use for:

- Subfloors
- Decks and docks
- Exterior sheathing
- Stair treads and risers
- Weather barrier beneath walls
- Metal, fiberglass, drywall and masonry
- All-purpose construction

Remaining permanently flexible reduces or eliminates splintering, cracking, squeaking and bouncing from floors. It's made for building in extreme climates.

SOME BENEFITS:

- Easy to gun when it's cold
- Won't drool when it's hot
- Remains flexible to absorb noise-causing vibrations
- Bonds to wet, frozen, and treated lumber
- Stronger than the LUMBER it LOCKS together

LUMBER LOCK is widely available in Canada at a dealer near you. If your supplier does not carry LUMBER LOCK, please call 1-604-785-2364 for support.

"I work for a general contractor in Winnipeg and use LUMBER LOCK on the condo units that we build. The framers like how easy it flowed and didn't drip during hot days. They also found that it cured very well even in colder weather during fall construction. Your product is amazing."

- Hubert from Winnipeg, MB

"It just works... no need to look for anything else. Worth every penny!"

- Bernard from Sturgeon Falls, ON

"I trust LUMBER LOCK to work in any weather condition that I do."

- Garry from Brampton, ON
